You are too good! Thanks for your hard work. BTW, I will be in Corvallis tomorrow for two RARE/GWMA meetings. However, I will be calling into the managers meeting at noon.

Alan

Subject: OR CZARA draft v4 12.9.14

Hi Jayne and Don (another copy, JB! But don't worry about it if you've already started working on another version),

Here's the latest draft. FYI Don, I kept the Non-fish bearing streams language after talking with Alan. Dennis knows what non-fish bearing streams are, but we're planning to also verbally such as headwater streams. (The non-fish bearing streams are more than headwater streams, so wanted to keep the full universe, since Dennis knows what Type N streams are. It does sound pretty bureaucratic otherwise, though.)

I'm going to be working from home in about 30 minutes, so JB, please send your changes to Jayne who will be doing the final version and sending to Christine and others for review. Jayne, I'm getting the stream miles from Helen so will send you those when I get it. Alan, we changed "fast track" to "reasonable."

Thanks, Everyone.
